NASA SEWP VI Ordering Guide

SEWP Overview

NASA SEWP VI – The NASA SEWP (Solutions for Enterprise-Wide Procurement), pronounced "soup", provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors.

Created in 1993, SEWP I was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. Originally, the contract vehicle provided only technology products for NASA and all other agencies. SEWP has continually evolved over the past 30 years, expanding its scope to meet the requests of its customers.

The SEWP vehicle represents acquisition innovation within the Federal Government. The program is self-funded through usage fees (0.34%) and provides all Federal agencies with acquisition support.

FAIR OPPORTUNITY

SEWP VI is a multiple-award Government-Wide Acquisition Contract subject to the Fair Opportunity requirements of FAR 16.505(b). For SEWP VI requirements, all applicable Contract Holders within the selected category must be considered unless an authorized exception to Fair Opportunity applies and is properly documented.

The method used to provide Fair Opportunity is at the discretion of the Ordering Contracting Officer, subject to FAR 16.505 and applicable agency procedures. The NASA SEWP Quote Request Tool (QRT) is the recommended method to support the Fair Opportunity process and associated acquisition documentation.

Slalom Information

SEWP VI Contract Number: 80TECH26D1862
Category: Category B – Enterprise-Wide ITC/AV Service Solutions
PoP: Nov 2026 to Oct 2036
SEWP Surcharge: 0.34%
UEI: D975PL76FFK7
Address: 8484 Westpark Drive, Suite 150, Tysons, VA 22102

SEWP VI Program Support

For assistance with Slalom's SEWP VI capabilities, ordering questions or post-delivery contact:

CJ Donnelly
SEWP VI Program Manager
cj.donnelly@slalom.com
571-895-7591

Claire Walsh
SEWP VI Deputy Program Manager
claire.walsh@slalom.com
571-895-7591

Customers experiencing an order, performance, invoice, administrative, or other post-award issue should contact Slalom's SEWP VI Program Manager or Deputy Program Manager.

How to Contact SEWP

SEWP PMO Hours: Mon-Fri, 7:30 AM – 6 PM (ET)
Email: help@sewp.nasa.gov
Customer Help Desk: (301) 286-1478
Website: https://www.sewp.nasa.gov/sewpvi/

Orders are accepted and administered in accordance with NASA SEWP VI ordering procedures and applicable ordering agency requirements.

slalom

Slalom Scope of Capabilities under SEWP VI

Slalom delivers enterprise-wide professional and technology services that help federal agencies modernize operations, improve mission outcomes, and accelerate digital transformation. Under SEWP VI, ordering agencies can engage Slalom for full-lifecycle, enterprise IT service solutions, including:

- **Cloud Architecture & Engineering:** Multi-cloud/hybrid cloud adoption, cloud native development, containerization, DevSecOps pipeline automation, and migration infrastructure.
- **Data, Analytics & Artificial Intelligence:** Modern data architecture, data governance, predictive modeling, machine learning operations (MLOps), and responsible Enterprise AI deployment.
- **Enterprise Modernization & Systems Integration**: Mission application redevelopment, legacy system decoupling, API architecture, ERP modernization, and enterprise CRM solutions.
- **Cybersecurity & Zero Trust Implementation**: Identity and Access Management (IAM), security posture assessments, compliance frameworks (FedRAMP, NIST, FISMA), and secure software engineering.
- **Customer Experience & Agile Delivery:** Human-centered design (HCD), low-code/no-code platforms, Agile transformation, product operating models, and organizational change enablement.

If you would like SEWP to determine whether a requirement is within scope of SEWP VI, customers may submit a requirement description, SOW, PWS, SOO, or other relevant scope information to help@sewp.nasa.gov for review.

Installation, warranty and support: Slalom's SEWP VI award is limited to Category B professional services. Slalom does not manufacture, resell, furnish, or distribute ICT products or components under its current SEWP VI operating model. Technical and post-delivery support for Slalom professional services is governed by the applicable task order.

Ordering Process

1. Agency drafts a Performance Work Statement (PWS), Statement of Objectives (SOO), or Statement of Work (SOW) alongside labor categories and required period of performance.
2. The ordering Contracting Officer issues a Request for Quote (RFQ) or Request for Information (RFI) using the online NASA SEWP Quote Request Tool (QRT) at sewp.nasa.gov.
3. Slalom submits a compliant technical and cost proposal. All pricing automatically accounts for the mandatory 0.34% SEWP administrative surcharge.
4. After evaluation and source selection, the agency issues an internal Delivery Order/Task Order (e.g., standard SF 1449 or OF 347) referencing Slalom's SEWP Contract Number and UEI.
5. The ordering agency routes the order through the NASA SEWP PMO. The PMO reviews the order for completeness, accuracy, and contract scope, assigns the applicable SEWP Control Number (SCN), and forwards the processed order to Slalom.
