Tableau Pulse

Reimagining the Analytics Experience

Learn how Slalom can help accelerate your data journey with AI-driven, personalized, and frictionless analytics experiences.

Uncover the Power of Tableau Pulse

Transform your Analytics with AI-Driven Insights

Data is everywhere, but how do you make sense of it? How do you turn raw numbers into meaningful stories that inform your decisions and actions?

With **Tableau Pulse**, you can transform your data into actionable insights, enhance decision-making, and optimize performance across your organization.

DEMOCRATIZING DATA INSIGHTS

Tableau Pulse is a reimagined data experience that democratizes analytics by making insights more accessible to users of all skill levels. It uses AI and statistical analysis to provide personalized insights directly in your favorite tools like Slack, email, Tableau, and Salesforce.

Say goodbye to complex data jargon - Tableau Pulse ranks and summarizes insights in natural language, making it easy for you to understand and act upon. Dive deeper into your data with guided follow-up questions and suggested prompts tailored to your needs.

Introducing Slalom's Tableau Pulse Enablement QuickStart

Accelerate Your Journey to AI-Driven Analytics

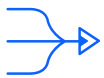

The Tableau Pulse QuickStart is a four-week engagement, starting with a full assessment of your existing Tableau ecosystem. We'll create a strategic roadmap for Tableau Pulse and assist in its implementation, ensuring that you are equipped with AI-driven insights for smarter and quicker decision-making.

KEY BENEFITS

Speed to Market

Don't know where to start? We'll help you roll out Tableau Pulse at scale quickly so you can start delivering AI solutions to your user base sooner.

Ease to Integrate

Our QuickStart seamlessly integrates Pulse with essential workplace tools like Slack and email. Plus, it effortlessly integrates with your existing Tableau environment.

Democratize Data

Tableau Pulse revolutionizes data analytics, making insights accessible to users of all skill levels, regardless of their expertise with data visualization tools.
